The field standards shall be verified by the State Department of Agriculture upon their initial receipt and at least once each 2 years thereafter.
- (2) The specifications, tolerances and regulations for commercial weighing and measuring devices issued by the National Bureau of Standards shall apply in this City except as modified by rules issued by the State Department of Trade and Consumer Protection.

The Department shall keep a complete record of its work and annually shall file a report thereof with the State Department of Trade and Consumer Protection.**22.05 ENFORCEMENT AUTHORITY.**

- (1) There is conferred upon the Sealer and Weights & Measures Inspectors of weights and measures, police power. Such Sealer and Weights & Measures Inspectors shall be provided with suitable badges or insignia of authority and in the exercise of their functions shall exhibit the same, upon demand, to any person questioning their powers and they may make arrests, with or without formal warrant, of any persons violating any statute or ordinance relating to weights and measures.

- (2) The Sealer or Weights & Measures Inspectors may enter and go into or upon any structure or premises, and may stop any person or vehicle for the purpose of enforcing this chapter. They shall inspect and test any weights or commodities which are sold or used commercially as often as necessary to secure compliance with this chapter. The Sealer or Weights & Measures Inspectors shall approve for use and may seal or mark with appropriate devices such weights and measures as found upon inspection and test to be correct, and shall reject and mark or tag as rejected such weights and measures found to be incorrect, but which in their best judgment are susceptible of satisfactory repair. No person shall use, remove from the premises specified, or fail to remove from the premises specified, any weight, measure, or package or amount of commodity contrary to the terms of a stop-use order, stop-sale order, or disposal order issued under the authority of this section.
- (4) The Sealer or his/her designee shall investigate complaints made to him/her concerning violations of the provisions of this chapter, and shall, upon his/her own initiative, conduct such investigations as he/she deems appropriate and advisable to develop information on prevailing procedures in commercial quantity determination and on possible violations of the provisions of this chapter, and to promote the general objective of accuracy in the determination and representation of quantity in commercial transactions.
- (5) In accordance with the provisions of Section 9.16, Madison General Ordinances, the Sealer or his/her designee shall inspect the physical inventory of merchandise to be sold to insure same to be in agreement with that inventory as submitted in the affidavit of application. Upon completion of such inspection the Sealer or his/her designee shall submit a written report of his/her findings to the City Clerk.

22.06 RESPONSIBILITIES OF EQUIPMENT OWNERS OR USERS. The owner, operator or user of any commercial weights and measures equipment, devices or associated equipment is responsible for the accuracy and maintenance of same.

- (1) It shall be the duty of every owner, operator or user to notify the City Sealer in writing of the acquisition of any commercial weighing or measuring device, whether new, rebuilt or used. Said notification shall be by application for use and payment of the appropriate fee and shall be prior to use of said device. (Am. by Ord. 9364, 12-21-87)

- (2) Commercial weights and measures devices regulated by this ordinance shall bear security seals appropriately affixed to any adjustment mechanisms designed to be sealed. The security seals shall bear the mark or imprint of the Sealer or Deputy Sealer, or other weights and measures official, or service persons authorized by the Sealer. Said security seal may only be removed to facilitate repairs of devices. Any service person who removes a security seal shall replace it and reseal the device with his/her own imprint. The Sealer or Deputy Sealer shall be notified of said repairs and removal of the seal within 72 hours of removal, or of the introduction of a new, rebuilt or used device per Subsection (1) above so that said device may be reinspected.
- (3) Transient merchants purchasing or selling commodities or services by weight or measure either from bulk or in packaged form shall notify the Sealer and receive the approval of the Sealer before purchasing or selling activities may be commenced. At the Sealer's discretion the transient merchant may be approved for a calendar year and the subsequent notification requirement may be waived. Sellers of farm produce and seafood vendors operating from other than a continuous, permanent location shall also meet these requirements.

22.07 METHOD OF SALE OF COMMODITIES.

- (1) Commodities in liquid form shall be sold by liquid measure and commodities not in liquid form shall be sold by weight, provided that liquid commodities may be sold by weight and commodities not in liquid form may be sold by count or measure if such methods are in general use and give accurate information as to the quantity of commodity sold.
- (2) Berries and small fruits may be sold by measure only if in containers having capacities of one-half dry pint, one dry pint, or one dry quart.
- (3) It shall be unlawful to advertise, offer for sale, or sell within the City firewood, fireplace wood, slabwood, or stovewood in any other manner than by the cord, fractions of a cord, volumetric measure or by weight.
 - (a) Mill ends, lumber scraps, and irregular pieces when sold for fuel, shall be sold by net weight.
 - (b) A "cord" is hereby defined as the amount of wood, or a combustible, fibrous growth, which is contained in a space of 128 cubic feet, when the wood is ranked and well stowed.
 1. Per custom, 128 cubic feet generally means a stack of wood 4 x 4 x 8 feet. "Ranked and well stowed" shall be construed to mean when pieces of wood are placed in a line or row, with individual pieces touching and parallel to each other, and stacked in a compact manner.
- (4) This section shall not apply to commodities sold in compliance with a state or federal law which prescribes another method of sale or to commodities for immediate consumption on the premises where sold.

22.08 DECLARATION OF QUANTITY.

- (1) No commodity which is marked, tagged or labeled, or for which a sign is displayed, with a selling price, shall be sold unless the weight, measure or count of the commodity is conspicuously declared on the commodity or its tag, label or sign, but a declaration of count is not required if the selling price is for a single unit, or a set or combination of commodities customarily sold to and understood by consumers as a single unit, or if the commodity is packaged prior to sale and the package contains 6 units or less which can be easily counted without opening the package.
- (2) No commodity shall be wrapped or its container made, formed or filled so as to mislead the purchaser; nor shall the qualifying term "when packaged," or the terms "jumbo" or "giant" or "full", or words of similar import that tend to mislead the purchaser as to the amount of the commodity, be used in connection with a declaration of quantity.
- (3) In addition to the declarations required by this section, any commodity in package form, the package being one of a lot containing random weights, measures or counts of the same commodity and bearing the total selling price of the package, shall bear on the outside of the package a plain and conspicuous declaration of the price per single unit of weight, measure or count.

22.09 VARIATIONS FROM DECLARED QUANTITY. The magnitude of permitted variations from declared quantity shall be determined by rules set forth by the Wisconsin Department of Agriculture, Trade and Consumer Protection and the facts in the individual case.

22.10 ADVERTISING COMMODITIES FOR SALE. Whenever a commodity in bulk or packaged form is advertised in any manner and the price of the commodity is stated in the advertisement, there shall be closely and conspicuously associated with such statement of price a declaration of the quantity; of contents offered in the case of packaged commodity; or of the price per unit and the unit it is based upon in the case of a bulk commodity.

- (1) When the commodity is in packaged form, the quantity, as it appears on the package, shall likewise appear in the advertisement, provided that where the law or regulation requires a dual declaration that sets forth the quantity in terms of a smaller unit of weight or measure, both declarations that are required to appear on the package must also appear in the advertisement.
- (2) Whenever any commodity is advertised as described above, the appropriate Method of Sale, as set forth in Section 22.07 of this ordinance, and in state statutes and rules adopted by reference, shall also be applied in the advertisement.
- (3) There shall not be included as part of the declaration required under this section such qualifying terms as "when packaged", "minimum", "not less than", or any other terms of similar import, nor any term qualifying a unit of weight, measure, or count (for example, "jumbo", "giant", "full", and the like) that tends to exaggerate the amount of commodity in the package.

22.11 MISREPRESENTATION OF PRICE. Whenever any commodity or service is sold or is offered, exposed, or advertised for sale, by weight, measure or count, the price shall not be misrepresented, nor shall the price be represented in any manner which may mislead or deceive an actual or prospective purchaser. Whenever an advertised, posted, or labeled price per unit of weight, measure, or count includes a fraction of a cent, all elements of the fraction shall be prominently displayed and the numeral or numerals expressing the fraction shall be immediately adjacent to, of the same general design and style as, and at least one-half the height and width of the numerals representing the whole cents.

One of these tickets shall be retained by the vendor and the other shall be delivered to the purchaser at the time of delivery of the fuel, or shall be surrendered on demand to the Sealer or Deputy Sealer who, if he/she desires to retain it as evidence, shall issue a weight slip in lieu thereof for delivery to the purchaser. If the purchaser carries away his purchase, the vendor shall be required only to give to the purchaser, at the time of sale, a delivery ticket stating the number of pounds of fuel delivered to him.

In the case of each delivery of liquid fuel not in package form, and in an amount greater than 10 gallons in the case of sale by liquid measure or 100 pounds in the case of sale by weight, there shall be rendered to the purchaser, either at the time of delivery or within a period mutually agreed upon in writing or otherwise between the vendor and the purchaser, a delivery ticket or a written statement on which, in ink or other indelible substance, there shall be clearly and legibly stated: 1) the name and address of the vendor, 2) the name and address of the purchaser, 3) the identity of the type of fuel comprising the delivery, 4) the unit price (the price per gallon or per pound, as the case may be) of the fuel delivered, 5) in the case of sale by liquid measure, the liquid volume of the delivery, together with the print meter readings from which such liquid volume has been computed, expressed in terms of the gallon and its binary or decimal subdivisions, and 6) in the case of sale by weight, the net weight of the delivery, together with any scale readings from which such net weight has been computed, expressed in terms of tons or pounds avoirdupois.

- (1) Every wholesaler, retailer, and every other person selling or distributing motor fuel, heating oil or solvents in the City of Madison shall keep posted in a conspicuous place at her/his place of business, and on every pump from which delivery is made, a placard, sign or the like clearly stating the identity of each product dispensed, including the grade, blend or mixture of the product, the net selling price, and the amount of all taxes per gallon. No such placard shall be required on a computer pump whereon the aforementioned information is legibly shown on the face. All motor fuel pumps shall be marked conspicuously to indicate the blend or mixture so contained.
- (2) Motor Vehicles Used by Disabled; Service.
