Well 12 – Facility Reconstruction

- Overview
- Elements of a Great City
- Key Staff
- Council Actions
- Community Engagement

Overview

Overview

- Well 12: A multifunctional but aging facility with excellent water quality.
 - Originally planned for reconstruction in 2016; delayed for budgetary reasons
 - Provides water to Madison's west side
- Project goals: Facility, operational, and storage upgrades
 - Bring the building up to all modern codes
 - Add a second booster pump for reliability
 - Potentially increase water storage capacity at this site
- Applying for funding through the Wisconsin Safe Drinking Water Loan

Overview

- Project Budget: \$8.0 million
 - Construction beginning mid-2026
 - Completion in summer 2027
- Other Project Details
 - Location – 801 S. Whitney Way
 - Water Utility partners: SEH, Inc. – Engineering consultants
 - Will utilize most of the plans and specifications established during the design and planning work done in 2015
