Mission, Goals and Objectives

The Madison Fire Department is building a diverse, innovative, nationally recognized Fire-Rescue Department committed to ongoing organizational review and enrichment where:

- every action of the Department is a display of our commitment to internal and external customers services;
- people continually expand their capacity to create the results they truly desire;
- new and expansive patterns of thinking are nurtured;
- people are continually striving to learn together;
- people are respected for who they are, for what they do, and for their good thinking.

We value compassion, honesty, integrity, teamwork, health and fitness, and inner strength. These values are in balance with the traditional focus on strength and courage.

We are committed to the prevention of harm within our community, and to the preservation of life, property, and the environment.

We take pride in our commitment to excellence and are prepared to work cooperatively with all agencies to handle any type of emergency that may occur in our community.

Steven A. Davis, Fire Chief

266-6564

The Chief is responsible for the following activities:

- Provide for the overall coordination, planning, management, and direction of the Department.
- Represent the Department throughout the community and on various committees and boards
- Interact with the various local, Regional, State, and Federal jurisdictions.

261-5539

The Fire Public Information Specialist is responsible for the following functions:

- Facilitating the Department's internal and external communications.
- Key point of contact for citizens, media, and representatives of agencies and groups with whom the MFD partners.
- Coordinates news conferences and speaking engagements.
- Responds to major emergency events and prepares and disseminates appropriate public and media information.
- Serves as primary spokesperson for the Fire Chief and the Fire Department.
- Maintains the Department's social media accounts and Department website.

Edwin J. Ruckriegel, Fire Marshal

266-4457

The Fire Prevention Division is responsible for the following activities:

Fire Protection Engineering Unit

266-4420

- Review fire protection system plans and specifications for compliance with ILHR, NFPA standards and the Madison General Ordinances.
- Review site plans for adequate Fire Department access and fire hydrant spacing.
- Witness acceptance testing on fire protection and life safety systems for final approval
- Provide fire protection consultant services to developers, architects, engineers and citizens of Madison
- Assist Fire Prevention personnel with field inspections.

Fire Inspection Unit

266-4420

- Completion of over 16,000 annual inspections of all commercial properties in the City of Madison, including residential properties of 3 units or more.
- Inspect commercial properties for compliance with local, state and national fire prevention codes and standards.
- Educate the public of the need for fire prevention. Act as a resource to the public for information on fire prevention codes and standards.
- Issue permits as a means to enforce requirements for the safe, code complying storage of hazardous or combustible materials and associated processes.
- Enforcement of the groundwater protection rules of ILR 10 through the review of plans and the inspection of underground storage tanks.

Community Education Unit

266-4420

- Community Education program development, scheduling and presentation.
- Development of the Department's fire safety education programs.
- Provide information to the public and the media via interviews, press conferences and prepared written releases.
