## DESCRIPTION OF PROPOSED PROJECT:

The City is planning to reconstruct Knutson Drive (Green Avenue to Northport Drive). The project includes a new streets design with curb and gutter and sidewalk. The asphalt pavement and gravel base will be replaced. The sanitary sewer and water main will remain. The project will add storm sewer and stormwater features for controlling surface water runoff. In order to add storm sewer to this portion of Knutson Drive, the project will need to construct storm sewer from Knutson Drive/Heffernan Drive/Beilfuss Drive intersection.
