

Summary of Changes

Posted 2/10/25

Summary of changes to Sauk Creek Corridor Plan Report:

- Page 1: January 17, 2025 to February 5, 2025
- Page 5: Executive Summary – Added information about regulatory structure and the need for bank stabilization.
- Page 15: Regional Sanitary Sewer – Added more context about the capacity of the sanitary sewer.
- Page 21: Updated map showing dead/symptomatic trees to more legible graphic shared during the January 22, 2025 PIM.
- Page 23: Updated Figure 11 with more clear graphic delineating drainage basins.
- Page 28, 30: Sanitary Access Paths – Added more background about Vector use and limitations.
- Page 57: How Community’s High-Level Values and Goals Shaped the Plan, Minimize impacts to trees – Clarified design process and guidance for minimizing impacts to healthy, native trees
- Page 66: Corridor Plan – Added information about alignment with other City plans, and added information on funding that has been shared during all the latest public meetings.
- Page 92-93: Construction Considerations – added information about minimizing disturbance to adjacent property owners along existing sanitary access path.
- Page 97: Design Considerations – Phase 2- Included additional modification in Construction Access on Existing Sanitary Access Path: Investigate ways to install riprap in channel behind St. Lawrence Cir and Geneva Cir to minimize disturbance to the sanitary access path to the amount practical. During design, consider access point to channel that was identified in walk-through as a way to install riprap from the channel for this section.
- Page 104: Appendix 3 – Linked Fact sheet as Appendix 3
- Page 105: Appendix 4 – Lined Public Comments on Final Corridor Plan, including input during final public meeting, and comments emailed to Jojo O’Brien.

Summary of changes to Fact Sheet:

- Page 1: January 17, 2025 to February 5, 2025
- Page 11: Maintenance – Added new question & response “Will access paths be gravel?”, Added information to “Why does the Vector truck need access to the sanitary sewer within the greenway?”, added new question & response, “Why is there a Standard Detail Drawing of a Sanitary Access Path with topsoil and seed if it isn’t used anymore?”
- Page 14: Engagement – added new question and response, “Did the City provide gift cards to get input at the in-person focus groups?”
- Page 15: Commitment to Climate Change – Added new questions & response, “How is the City showing its commitment to combating climate change with this project?”
