

# University Ave. Construction Weekly Update

State Project ID: 5992-11-31  
University Avenue  
(Shorewood Boulevard – University Bay Drive)

June 17, 2024

## GENERAL PROJECT INFORMATION

University Avenue is being reconstructed from Shorewood Boulevard/Hill Street to University Bay Drive/Farley Avenue. The project includes reconstruction of pavement, curb and gutter, sidewalk, street lighting, traffic signals, water main, sanitary sewer, and storm sewer. Pedestrian and bicycle connectivity, bus rapid transit initiatives, and stormwater drainage will be improved, and the project will include a new pedestrian/bike overpass of University Bay Drive, a widened sidewalk along the southerly side of University Avenue, and a 96-inch storm sewer pipe to help improve drainage in the area.

### WORK THE WEEK OF JUNE 17, 2024

- The contractor has completed installing the final lift of asphalt pavement and permanent pavement markings on University Ave./Campus Dr. and all adjacent side streets.
- Minor concrete sidewalk and curb installation and repair will be taking place at various locations during the week.
- The contractor will be completing final cleanup and restoration work throughout the project limits.
- Off-peak (9 AM – 3 PM) single-lane closures in both the westbound and eastbound directions on University Ave. will occur during the week; however, it is anticipated that two lanes of traffic will be maintained in both directions on University Ave./Campus Dr. at all times while the remaining cleanup and restoration work is being completed.

### WORK THE WEEK OF JUNE 24, 2024

- The contractor intends to complete all final clean up and restoration work throughout the project limits.
- It is anticipated that two lanes of traffic will be maintained in both directions on University Ave./Campus Dr. while the remaining cleanup and restoration work is being completed.
- Green colored pavement markings for bike boxes will be installed at Farley Ave., University Bay Dr. and Hill St.
- Please note that the Bus Rapid Transit (BRT) project will be continuing work on the bus stations within the University Ave. project limits. The BRT project's ongoing work may require periodic lane closures or other traffic restrictions.

## TRAFFIC / PEDESTRIAN / BIKE IMPACTS

Traffic will remain in a configuration that maintains two lanes in both directions during peak travel periods on University Ave. within the project limits (from approximately Shorewood Blvd. to University Bay Dr.). Through traffic is being maintained on all side streets. Short-term sidewalk detours along University Ave. and adjacent side streets may be needed to complete the remaining sidewalk and pedestrian ramps. Please be alert for sidewalk closed and pedestrian detour signage that will be in place while this work is being completed. Also note that the Bus Rapid Transit (BRT) project is utilizing single-lane closures east and west of the University Ave. project limits. additional information on work related to the BRT project can be found here: <https://www.cityofmadison.com/metro/routes-schedules/bus-rapid-transit>
