Project Overview

Project	Aerial Photo / Orthophotos	Project #	11846
Citywide Element	Effective Government	Project Type	Program

Project Description

This program is for updating the City's GIS base mapping with the aerial photography, contours and impervious area shapes of existing City lands and adjacent areas where the City may expand. The goal of the program is to provide data and imagery to inform City operations, planning and stormwater modeling efforts and requirements. This project completes aerial photography and aerial photos and impervious area identification combined with digital topographic information on an alternating biennial cycle.

Project	Equipment and Vehicle Replacement	Project #	10576
Citywide Element	Green and Resilient	Project Type	Program

Project Description

This program is for the purchase of vehicles and equipment utilized by the Landfill, Sewer, and Stormwater Utilities. The goal of this program is to provide the necessary transportation and equipment resources for the services provided by these agencies. Vehicles funded include those to support construction and sewer cleaning, with an emphasis on purchase of electric vehicles.

Right of Way Landscaping & Trees
Green and Resilient

Project # **11082**
Project Type **Program**

Project Description

This program is for landscaping of existing boulevards and rights of way throughout the City. Historically, this has been for planting/replanting of flower/shrub beds; as the City moves to a more sustainable model, funds are primarily used to convert turf islands that are difficult for Parks staff to mow to a low maintenance ground cover of differing types that only require mowing one time per year or less. These ground covers have higher salt tolerance, and provide habitat for pollinators.

Warning Sirens
Effective Government

Project # **11495**
Project Type **Program**

Project Description

This program is for upgrades and expansions to the City's emergency warning siren network. The goal of this program is to maintain the alert system provided by the network of warning sirens. Funding is scheduled for adding additional sirens to support the growing City's needs.

Waste Oil Collection Sites
Green and Resilient

Project # **11494**
Project Type **Program**

Project Description

This program is for upgrading/replacing the City's four (4) Waste Oil collection sites. The goal of this program is to provide residents a safe convenient and free location to dispose of waste oil. Further, the City's operational goal is to maintain compliance with Wisconsin Department of Natural Resources standards and isolate any illicit dumping of waste oil containing polychlorinated biphenyls (PCBs). Projects funded include the last remaining site to complete, the City of Madison Glenway collection site.
