

Planning Division

Agency Overview

Agency Mission

The mission of the Planning Division is to develop and recommend urban development policies, improve the quality of the downtown and existing neighborhoods, and plan for new neighborhoods and peripheral growth management.

Agency Overview

The Agency compiles and analyzes statistical data relating to urban planning and management and implements adopted City land-use and development policies through maintaining development regulations and reviewing specific development proposals. The goal of the Planning Division is to prepare and maintain plan elements as guidance and management for City growth and development and to manage long-range transportation planning and programming for the City and metropolitan area. Planning will advance this goal by monitoring progress on Comprehensive Plan recommendations and continuing a Citywide long-range facilities plan.

Budget Service Changes

As part of the 2025 budget process, all agencies evaluated the budget service structure and had the opportunity to propose updates to services. The Planning Division's 2025 budget service structure has been changed from the 2024 adopted budget. Since there were changes to services, the budget does not show a full history at the service level. The budget does show a full history at the agency level by fund and by major expenditure category.

The 2024 Adopted Budget included the following services:

- Comprehensive Planning and Development Review
- Metropolitan Planning Organization
- Neighborhood Planning, Preservation and Design

The 2025 Executive Budget has been updated to the following services:

- Administration
- Community Connections
- Data & Mapping
- Development Review
- Metropolitan Planning Organization
- Plan Creation
- Plan Implementation and Design
- Support for the Arts

*Service Overview***Service:** Data & Mapping*Service Description*

This service includes maintenance, analysis, and communication of a wide variety of geographic and demographic data for use by City agencies, policymakers, and the public. With a focus on improving data clarity and usability, mapping services rely on data inputs from the US Census and other agencies and community partners.

Activities Performed by this Service

- **Geographic Information Systems (GIS) Maintenance:** Ongoing maintenance of GIS layers/data related to development activity, zoning, political districts, City services and other topics. These updates populate core City databases and online resources, including the Assessor’s Office Property Lookup webpage.
- **Development Pipeline Data Maintenance:** Ongoing updates to a geographic database of proposed and approved developments that are not yet constructed. Knowledge of these expected developments, which do not yet appear in other city databases, can be useful for other city agencies and community partners (school districts, etc.) engaging in near-term planning.
- **Data & Mapping Support and Requests:** Support the needs of PCED Divisions. Support several City agencies beyond PCED that have GIS needs but lack GIS staff. This ranges from ongoing support for the Clerk’s Office (e.g. polling places, wards, Alder Districts) to occasional support for agencies such as the Mayor’s Office and Common Council Office.
- **Madison Neighborhood Indicators Project (NIP):** The NIP is updated biennially through a contract with the UW-Madison Applied Population Lab. It brings together data from a variety of sources in a user-friendly interface, focusing on topic areas such as demographics, housing, public safety, health, education, economics, and transportation.

Service Overview

Service: Development Review

Service Description

This service supports the City’s decisions related to development and redevelopment, pursuant to relevant Wisconsin statutes and local ordinances in MGO Chapters 16 (General Planning), 28 (Zoning Code), 33.24 (Urban Design Commission), and 41 (Historic Preservation). Development review activities summarized below include facilitation of meetings with elected officials, community groups, development teams, and interagency staff teams leading up to the preparation of recommendations to appointed and elected officials related to development proposals. Staff must ensure compliance with commission decisions prior to (re)development moving forward. Further, as provided by ordinance, administratively reviewed changes also involve staff support to property owners, contractors, and designers.

Activities Performed by this Service

- **Plan Commission Support:** Review and make recommendations to the City’s Plan Commission on development proposals including demolition, conditional uses, rezonings, and land divisions, following policies and procedures in MGO Chapters 16 and 28 and relevant Wisconsin statutes. This activity typically supports roughly 200 annual development requests, including many requiring final decisions by the Common Council.
- **Urban Design Commission Support:** Review and make recommendations to the City’s Urban Design Commission regarding development proposals within eight (8) Urban Design Districts, design of public buildings, and other items consistent with MGO Chapter 33.24. This activity supports over 70 annual development requests to the UDC and a significant amount of additional administrative review.
- **Landmarks Commission Support:** Review and make recommendations to the City’s Landmarks Commission regarding proposed development and change within five (5) Local Historic Districts, to local Landmark sites, and other items consistent with MGO Chapters 33.19 and 41. This activity has typically supported 40 - 50 annual development requests to the Landmarks Commission. In 2023, this number dropped to 29 due in large part to a comprehensive ordinance update adopted in 2022 that allowed for more administrative approvals. This service also provides a significant amount of support to contractors and residents working to update and maintain historic buildings.
- **Interagency Coordination:** In supporting the commissions listed above and for other development proposals a significant amount of work for this service includes coordinating with various agencies involved in the development review/approval process, including pre- and post- approval on a variety of issues to provide guidance to development teams throughout the process, including coordinating the Development Assistance Team.
- **Community Meeting Support:** Attend meetings about specific development/redevelopment projects, often at the request of alders, resident groups, or the development team.
