#### INDEPENDENT AUDITORS' REPORT

To the Transit and Parking Commission Metro Transit System Madison, Wisconsin

#### Report on the Financial Statements

We have audited the accompanying financial statements of Metro Transit System, an enterprise fund of the City of Madison, as of and for the years ended December 31, 2018 and 2017, and the related notes to the financial statements, as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control over financial reporting relevant to the Metro Transit System's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Metro Transit System's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Metro Transit System as of December 31, 2018 and 2017, and the respective changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Emphasis of Matters**

As discussed in Note 1, the financial statements present only the Metro Transit System enterprise fund and do not purport to, and do not, present fairly the financial position of the City of Madison, as of December 31, 2018 and 2017 and the respective changes in financial position, or cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

As discussed in Note 1, the Metro Transit System adopted the provisions of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, effective January 1, 2018. Our opinion is not modified with respect to this matter.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information as listed in the table of contents be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information is fairly stated in all material respects in relation to the financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

Baker Tilly Virchaw & rause, 42

In accordance with *Government Auditing Standards*, we will also issue a report on our consideration of the overall City of Madison's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters, including those systems applicable to Metro Transit System. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Madison's internal control over financial reporting and compliance.

Madison, Wisconsin June 19, 2019

#### MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT

The following report of Metro Transit's activities and financial performance provides the reader with an introduction and overview to the financial statements for the fiscal year ended December 31, 2018 and 2017.

The information contained in this report should be considered in conjunction with the information contained in the other historical summaries and activities and financial performance section of this report.

#### Mission

It is the mission of Metro Transit (Metro), through the efforts of dedicated, well-trained employees to provide safe, reliable, convenient and efficient public transportation to the citizens and visitors of the Metro service area.

Metro provides extensive fixed route and ADA paratransit service in a 72 square mile regional service area with a population of 253,075 and also provides contributions to Dane County for the delivery of Group Access Services (providing transportation of the elder to meal-sites), and Volunteer Driver Escort programs in the Metro service area. Metro is an Enterprise Fund of the City of Madison. Local investment partners are the Cities of Fitchburg, Middleton, and Verona, Town of Madison, Madison Area Technical College, Madison Metropolitan School District, the University of Wisconsin-Madison, the University of Wisconsin Hospital East, and the Village of Shorewood Hills. In 2018 Metro worked with Sun Prairie staff to be a new city partner with Metro in 2019, which has now been approved for new services starting in August. Unlimited ride pass program participants include the UW-Madison, Madison College, Edgewood College, St. Mary's and Meriter Hospitals and the City of Madison.

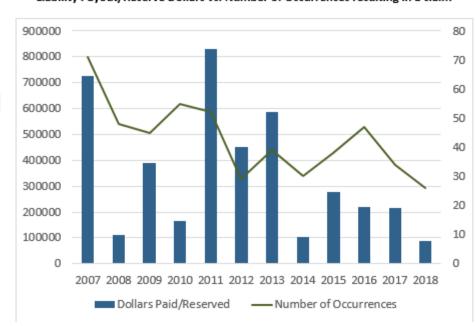

#### **Annual Overview**

Metro's 2018 bus ridership was 13.2 million, up 3.2% from the previous year. Paratransit ridership had a decrease of 46.8% from 291,000 to 155,000 rides in 2018, due to the implementation of Family Care. There are now several national studies documenting the drop in the transit ridership across the U.S., which cite the sustained drop in gasoline prices to about \$2.50 per gallon, the strong economy contributing to increases in auto ownership and auto driving, and the increase in ridership on Transportation Network Companies (ie., Uber and Lyft) which have more than offset national decreases in traditional taxi and transit ridership for the past several years. Nationally, bus systems Metro's size dropped 1.1% and demand response was up 2.2% in 2018 over 2017. Since the trend in reduced bus ridership started, a passenger survey in Madison in 2015 indicated overcrowding on buses was still the #1 customer concern, so it may be working alongside other trends to cause the overall ridership drop. Finally, Metro Transit has now been turning down requests for additional peak hour services for four years or more from a growing numbers of private sector, academic, and municipal sources. Because Metro is unable to meet the peak hour adjustments associated with MMSD's middle school time changes to improve student

#### MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT

performance, a plan is underway to reduce Metro services to middle schools. Metro is using this shift to accommodate services like Sun Prairie starting in 2019. This is not a sustainable method to deal with overcrowding on buses and demands for new peak hour services, so Metro continues to focus on building a satellite facility and design BRT to address capacity needs, without which the ability to increase ridership is limited.

2018 was another year of keeping accidents and insurance payouts at historical lows compared to the past 10 years, as the attached chart shows. This trend reflects greater emphasis on refresher training and the use of cameras to evaluate bus accidents for future prevention and claims cost control. This long term trend is resulting in a return of excess surplus from our insurance company to Metro of approximately \$800,000 over a 5 year period.

Transit Mutual Insurance Report Data

Liability Payout/Reserve Dollars vs. Number of Occurrences resulting in a claim

On the facility front, in in 2018 Metro Transit received a significant increase in the engineering cost estimate for Nakoosa Trail as a satellite facility, which caused the city's focus to shift to alternative satellite sites. The City Council recently authorized negotiations for a portion of the old Oscar Mayer site near Aberg Avenue and the North Transfer Point, and Real Estate staff are leading that process with the new owner.

Meanwhile, Metro's existing (1101 E. Wash) bus garage upgrade was studied by Mead and Hunt, while overseen by City Engineering and Metro. The study points to a 5 phase plan over the next 5 years, which totals \$57 million for the 5 phases, with the first phase costing \$7

#### MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT

million. This is now included in the approved Capital Improvement Plan for the City of Madison/Metro Transit. By 2018 the replacement roof project was mostly finished and the first phase will start in the spring of 2019 to ready the garage for electric buses, move the service lane to improve efficiency, and undertake other fire and safety upgrades.

The year 2018 saw fundamental changes in the way Metro provides paratransit services, driven by the implementation of Family Care, a state human services delivery model that eliminates \$3.9 million in operational funding to Metro and allocates those dollars to Family Care related agencies for various service deliveries with the goal of increased efficiency and elimination of the waiting list for hundreds of clients with disabilities. Dane County was the last of 78 counties in the state to make this change, in part because of the high quality of transportation services used by people with developmental disabilities over the past 20 years.

The resulting ridership changes are reflected in the next chart, which shows a ridership drop, as noted earlier, from 291,000 in 2017 to 155,000 in 2018. The chart shows an actual increase in January, consistent with a previous long term trend, and then as Family Care started to be implemented in February there are steadily larger drops in ridership peaking at a 67% drop in December, and ending the year 47% below the previous year. Due to the cutback in operations funding and the ongoing limits on federal transit capital funding, Metro completely phased out directly operated paratransit services effective August 10, 2018 and now all ADA paratransit services are met by contracted providers. The employees at Metro in paratransit were all offered new job placements and other than several retirements, one shift to another city department, the rest stayed at Metro Transit in fixed route operations or maintenance.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT

2017 to 2018 Ridership Comparison

The impact of Family Care implementation in Dane County can be seen in the comparative data.

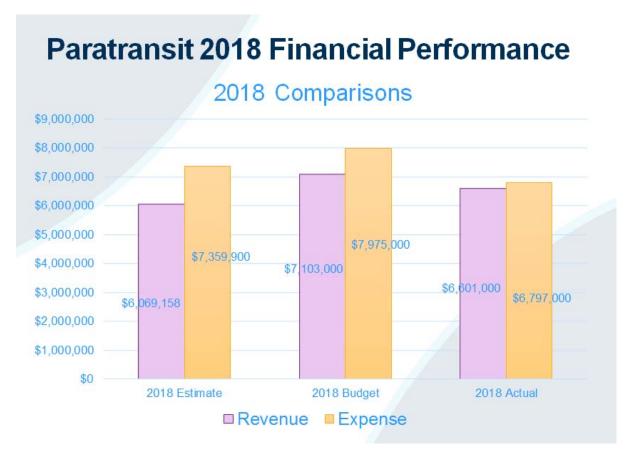

**Family Care transition** occurred from February to May in 2018.

Month	2017 Ridership	2018 Ridership	Percent Change
January	22,500	24,320	8%
February	24,242	20,427	-16%
March	26,745	17,681	-34%
April	23,401	13,420	- 43%
May	25,055	11,458	- 54%
June	24,375	9,931	- 59%
July	22,317	9,836	- 56%
August	25,126	9,846	- 61%
September	23,863	9,077	- 62%
October	26,292	10,455	- 60%
November	24,486	9,622	- 61%
December	22,616	8,857	- 61%
TOTAL	291,018	154,930	- 47%

(m) metro transit

#### MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT

The chart above shows (a) the 2018 Metro paratransit expense and revenue estimates, (b) the 2018 City of Madison/Metro Transit adopted paratransit budgets for expenses and revenues, and (c) the 2018 audited actual expenses and revenues. Despite the volatility of the changes in paratransit, expenses and revenues came in under budget because of the actual larger ridership drop than expected (47% vs. 33%), the reduced payments to contracted providers, but offset by the increase in agency fare ticket revenues for Family Care clients using Metro paratransit service. Also, certain revenue categories like federal operating and state operating allocations were adjusted at the end of the year and reviewed in the annual audit to reflect the actual ridership drop.

Another major financial development in 2018 was the approval of the 2019 capital budget in November, which includes 100% local funding to upgrade our existing bus garage, 100% local funding to purchase and upgrade a satellite facility at Oscar Mayer, and about 50% local funding for new buses. This is a dramatic shift from the 20+ year trend where Metro assumptions always were to get 80% federal funding for capital projects, and that assumption is now officially outdated and irrelevant. Expansion investments for BRT will take an even greater contribution, and local decisions under discussion currently for the 2020 capital budget will determine just how able we are to invest in expansion. The bicycle community uses a "platinum" goal based on a national standard, which it has achieved recently. If transit

#### MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT

had such national standards Metro might be at "silver" and without the ability to expand probably could not achieve "gold" or "platinum."

Financially, Metro finished the year with a positive contribution to reserves, adding about \$1,000,000 to the contingency fund level. These funds have helped to move forward with engineering and design work at Metro's proposed expansion facility (Nakoosa, now Oscar) and with work at our existing bus garage for safety, health, and other essential operational efficiency upgrades. Contributing factors to the contingency increase include better than expected advertising and paratransit ticket revenues.

Year	Beginning Balance	Reserves +/-	Ending Balance
2013	\$784,150	\$1,889,142	\$2,673,292
2014	\$2,673,292	\$2,342,141	\$5,015,433
2015	\$5,015,433	\$2,435,984	\$7,451,417
2016	\$7,451,417	(\$4,065,171)	\$3,386,246
2017	\$3,386,246	\$300,575	\$3,686,821
2018	\$3,686,821	\$1,024,367	\$4,711,188

#### **2018 Detailed Financial Highlights**

A breakdown of revenues and expenses by mode is shown in the following chart detailing how Metro ended the year with about a \$1,000,000 contribution to the reserve level.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT

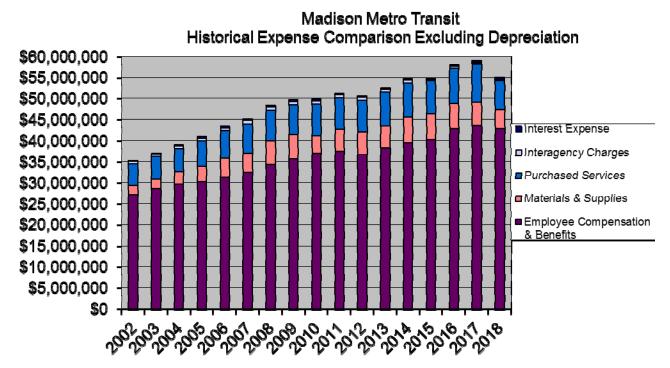

As can be seen from the following chart, employee compensation and benefits accounted for 78% of total expenses excluding depreciation in 2018, compared to 74% in 2017.

## 2018 Expenses excluding Depreciation

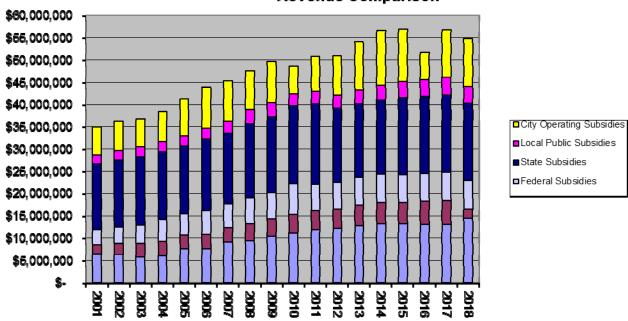

#### MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT

The first of the following charts shows that total operating expenses decreased by 6.6% between 2017 and 2018, due primarily to the significant decrease in paratransit service. Between 2013 and 2018 Metro experienced an average increase in total operating costs of 0.9% per year. The second chart compares Metro's revenue sources for the same period of time. Passenger revenue has increased by an average of 0.3% per year during the last 5 years and state aid, which provides the largest portion of Metro's revenue, increased 1.0% per year during the same time period.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT

# Madison Metro Transit Historical Revenue Comparison

#### MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT

## **GRANT STATUS**

Despite the early comments on the cutbacks in federal funding, it is still worth noting that Metro is fortunate to have federal support for capital funding for rolling stock (buses), ITS hardware/software, transit enhancements, facilities improvements and other capital projects. The following chart shows the year-end grant status of each grant against which expenditures were charged during the year. Note that where balances are available as of 12/31/18 future capital project plans are budgeted to draw down those balances.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT

#### **Borrowing**

As is shown in the information provided below, Metro's debt through the City's General Obligation borrowing (G.O. debt) has been kept to manageable levels. Most borrowing is related to capital purchases where 50 to 80 per cent of funding is derived from federal grant sources and the balance from local borrowing. The City has a AAA bond rating. The City carefully manages the borrowing and debt service.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT

### **Financial Statements**

Metro's basic financial statements are prepared on an accrual basis in accordance with accounting principles generally accepted in the United States of America, promulgated by the Government Accounting Standards Board (GASB). Revenues are recognized when earned, not when received. Expenses are recognized when incurred, not when they are paid. Capital assets, except land, are depreciated over their useful lives. See the notes to the financial report for a summary of Metro's significant accounting policies.

### **Condensed Statements**

The following condensed Statements found in Table 1 and Table 2 below is information required to appear in the Management Discussion and Analysis (MD & A) report. The footnoted references will assist in locating more details in the MD & A and Audit Report.

NOTES TO FINANCIAL STATEMENTS
December 31, 2018 and 2017

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Metro Transit System (Metro) have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to enterprise funds of government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting principles and policies utilized by Metro are described below:

#### REPORTING ENTITY

Metro provides public bus transportation in the Cities of Madison, Middleton, Fitchburg and Verona, the Town of Madison and the Village of Shorewood Hills. Metro is governed by the Transportation Planning and Policy Board and Transportation Commission which consists of City Council members and citizen representatives. Service is provided in two major areas: fixed route service utilizing 220 coaches and paratransit services for the elderly and handicapped using both directly operated and purchased transportation services (as of August 2018 Metro no longer provides directly operated paratransit service).

#### MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION

The term measurement focus is used to denote <u>what</u> is being measured and reported in Metro's operating statement. Metro is accounted for on the flow of economic resources measurement focus. The fundamental objective of this focus is to measure whether Metro is better or worse off economically as a result of events and transactions of the period.

The term basis of accounting is used to determine <u>when</u> a transaction or event is recognized on Metro's operating statement. Metro uses the full accrual basis of accounting. Under this basis, revenues are recorded when earned and expenses are recorded when incurred, even though actual payment or receipt may not occur until after the period ends.

Metro is presented as an enterprise fund of the municipality. Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business or where the governing body has decided that the determination of revenues earned, costs incurred and net income is necessary for management accountability.

Preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

In June 2015, the GASB issued Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions, effective for financial statements for years beginning after June 15, 2017. This statement requires governments to report a liability on the face of the financial statements for the Postemployment Benefits Other than Pensions (OPEB) provided by the entities and requires governments to present more extensive note disclosures and required supplementary information about their OPEB liabilities. Metro adopted this statement effective January 1, 2018. The cumulative impact of the implementation is shown in Note 12.

NOTES TO FINANCIAL STATEMENTS December 31, 2018 and 2017

#### **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (cont.)

#### ASSETS, DEFERRED OUTFLOWS, LIABILITIES, DEFERRED INFLOWS, AND NET POSITION

#### Cash and Cash Equivalents

All Metro cash is commingled with the city cash and investments, which are managed by the City Treasurer. The disclosures regarding deposit and investment risks, as required by Statement No. 40 of the Governmental Accounting Standards Board are included in the general-purpose financial statements of the city, since it is not possible to segregate them by fund.

For purposes of the statement of cash flows, cash and cash equivalents have original maturities of three months or less from the date of acquisition.

#### Deposits and Investments

State statutes restrict investment of transit funds. Investments are limited to:

- 1. Time deposits in any credit union, bank, savings bank or trust company maturing in three years or less.
- 2. Bonds or securities of any county, city, drainage district, technical college district, village, town, or school district of the state. Also, bonds issued by a local exposition district, local professional baseball park district, local professional football stadium district, local cultural arts district or by the University of Wisconsin Hospitals and Clinics Authority.
- 3. Bonds or securities issued or guaranteed by the federal government.
- 4. The local government investment pool.
- 5. Any security maturing in seven years or less and having the highest or second highest rating category of a nationally recognized rating agency.
- 6. Securities of an open-end management investment company or investment trust, subject to various conditions and investment options.
- 7. Repurchase agreements with public depositories, with certain conditions.

Investments are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on the methods and inputs outlined in the financial statements of the city in compliance with Statement No. 72 of the Governmental Accounting Standards Board. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income.

NOTES TO FINANCIAL STATEMENTS December 31, 2018 and 2017

#### **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

#### ASSETS, DEFERRED OUTFLOWS, LIABILITIES, DEFERRED INFLOWS, AND NET POSITION (cont.)

#### Accounts Receivable

Metro considers receivables from government units to be fully collectible; accordingly, no allowance for doubtful accounts from governmental units is presented. An allowance of \$23,183 is included in 2018 and 2017 for general accounts receivable.

#### Materials and Supplies

Materials and supplies are generally used for operation and maintenance work, not for resale. They are valued at lower of cost or market based on the FIFO method and charged to operation and maintenance expense when used. An allowance of \$50,000 for obsolete materials is included in 2018 and 2017.

#### Prepaid Expenses

This represents amounts paid for services or coverage to be provided in future periods.

#### Capital Assets

Capital assets are defined by Metro as assets with an initial, individual cost of more than \$10,000 and an estimated useful life in excess of one year.

Additions to and replacements of Metro capital assets are recorded at original cost, which includes material, labor, overhead, and an allowance for the cost of funds used during construction when significant. The cost of renewals and betterments relating to retirement units is added to capital asset accounts. The cost of property replaced, retired or otherwise disposed of is deducted from capital asset accounts and is charged to accumulated depreciation.

Fixed assets other than land are depreciated using the straight line method over their estimated useful life.

A summary of capital assets and estimated useful lives follows:

	Balance 12/31/18	Balance 12/31/17	Years
Land	\$ 2,604,992	\$ 2,604,992	N/A
Building	14,035,923	12,267,916	5 – 40
Curb and land improvements	6,714,009	6,714,009	5
Revenue equipment	80,623,116	79,742,145	8 – 20
Service vehicles	830,275	797,810	4 – 5
Shop and garage equipment	1,803,588	1,803,588	3 – 10
Furniture and office equipment	723,097	754,949	3 - 10
Miscellaneous and farebox	10,161,054	9,230,422	3 – 15
Total Capital Assets	\$ 117,496,054	\$ 113,915,831	

NOTES TO FINANCIAL STATEMENTS December 31, 2018 and 2017

#### **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)**

#### ASSETS, DEFERRED OUTFLOWS, LIABILITIES, DEFERRED INFLOWS, AND NET POSITION (cont.)

#### **Pensions**

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wisconsin Retirement System (WRS) and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms, investments are reported at fair value.

#### Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, benefit payments are recognized when due and payable in accordance with the benefit terms.

#### **Deferred Outflow of Resources**

A deferred outflow of resources represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense) until that future time.

#### Accrued Compensation, Sick Leave and Vacation

Employees are allowed to accumulate up to 150 days of sick time. For office employees and drivers one day is equivalent to eight hours; for all other employees one day is equivalent to 8-36/60 hours. Upon retirement or disability, Wisconsin Retirement System participants may receive the cash value of the accumulated sick leave subject to the above maximum or use all or a portion for the payment of continued health insurance premiums. Funding for those costs is provided out of Metro's operating revenues. The estimated liability for current employees at December 31, 2018 and 2017 is \$4,058,552 and \$3,832,304 respectively.

Employees earn varying amounts of vacation depending on the number of years of service. Vacation time for all non-represented employees and represented employees hired prior to January 1, 1998 is awarded based on the prior year's service and is, therefore, accrued at the end of each year. Represented employees hired after January 1, 1998 are awarded their vacation immediately and can use it once they have completed their probationary period. Represented employees may opt to carry over one week of vacation each year. All other vacation time must be used within the year received.

NOTES TO FINANCIAL STATEMENTS December 31, 2018 and 2017

#### **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (cont.)

#### ASSETS, DEFERRED OUTFLOWS, LIABILITIES, DEFERRED INFLOWS, AND NET POSITION (cont.)

#### Retiree Health Insurance Escrow

Metro makes an annual deposit into an escrow account for contributions toward the health insurance premiums for certain eligible retirees. The deposits were \$439,819 and \$431,195 in 2018 and 2017, respectively. To qualify a retiree must have retired on or after reaching age 55, must have completed ten continuous years of full-time service with Metro in a position represented by Teamsters Union Local 695, just prior to retiring and be eligible to retire under the Wisconsin Retirement System (WRS). Retirees receive this benefit for a maximum of five consecutive years or until becoming eligible for Medicare. Retirees will be eligible for premium contributions to the extent that funds are available in the escrow account and Metro will not be required to make any additional payments to the account should the cost of providing premium contributions exceed the amount deposited. Interest income remains with the escrow account less a 1% administrative fee transferred to the City. As of December 31, 2018, 116 current employees have met the eligibility requirements.

#### **Unearned Revenue**

Madison Metropolitan School District purchases passes for the school district that are valid for the entire school year. The estimated value of those passes that is related to rides to be provided in the following calendar year has been recorded as unearned revenue at year end.

#### Long-Term Obligations

Long-term debt and other obligations are reported as Metro liabilities.

#### **Deposits from Other Governments**

Metro collects deposits from various entities that provide Metro with local operating assistance subsidies. These deposits are held by Metro in reserve to help fund unanticipated cost increases in future years. The reserve balance is reviewed annually and amounts received in excess of the annual cost and the required reserve balance are reported as payables and refunded in the subsequent year. In 2018 and 2017, \$409,522 and \$193,347, respectively, were returned to these entities.

#### Deferred Inflows of Resources

A deferred inflow of resources represents an acquisition of net position that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time.

NOTES TO FINANCIAL STATEMENTS December 31, 2018 and 2017

#### **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (cont.)

ASSETS, DEFERRED OUTFLOWS, LIABILITIES, DEFERRED INFLOWS, AND NET POSITION (cont.)

#### **Net Position**

Equity is classified as Net Position and is displayed in three components:

- Net investment in capital assets This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.
- Restricted This component of net position consists of constraints placed on net position
  use through external constraints imposed by creditors (such as through debt covenants),
  grantors, contributors, or laws or regulations of other governments or constraints imposed
  by law through constitutional provisions or enabling legislations.
- Unrestricted net position This component of net position consists of net positions that do not meet the definition of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is Metro's policy to use restricted resources first then unrestricted resources as they are needed.

The following calculation supports the net investment in capital assets:

	 2018		2017
Plant in service	\$ 117,496,054	\$	113,915,831
Accumulated depreciation	(72,971,622)		(72,101,886)
Construction work in progress	74,500		185,371
Sub-Totals	44,598,932	_	41,999,316
Less: Capital related debt			
Current portion of general obligation bonds	1,732,731		1,480,034
Long-term portion of capital related general obligation bonds	10,456,720		8,235,915
Sub-Totals	12,189,451		9,715,949
Add unspent proceeds of capital-related debt included above	 308,954		846,619
Net Investment in Capital Assets	\$ 32,718,435	\$	33,129,986

NOTES TO FINANCIAL STATEMENTS December 31, 2018 and 2017

#### **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (cont.)

#### REVENUES AND EXPENSES

#### Revenue Recognition

Metro distinguishes *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services. The principal operating revenues of Metro are charges to customers for services. In addition, as fully described in Note 5, Metro also receives operating subsidies from state, local and federal governments. Operating expenses include the cost of services, administrative expenses, and depreciation on capital assets. Other revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

#### Taxes

Municipal transit utilities are exempt from federal and state income taxes and, therefore, no income tax liability is recorded by Metro.

#### **Capital Contributions**

Metro has received Federal, State and local funding for acquisition and construction of capital assets. In accordance with GASB Statement No. 33, this funding is reported as an increase in net position.

The Federal and State grants are subject to grantor agency compliance audits. Management believes losses, if any, resulting from those compliance audits are not material to these statements

#### EFFECT OF NEW ACCOUNTING STANDARDS ON CURRENT PERIOD FINANCIAL STATEMENTS

The Governmental Accounting Standards Board (GASB) has approved GASB Statement No. 83, Certain Asset Retirement Obligations, Statement No. 84, Fiduciary Activities, Statement No. 87, Leases, Statement No. 88, Certain Disclosures Related to Debt Including Direct Borrowings and Direct Placements, Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period, and Statement No. 90, Majority Equity Interests – an amendment of GASB Statements No. 14 and No. 61. When they become effective, application of these standards may restate portions of these financial statements.

#### COMPARATIVE DATA

Certain amounts presented in the prior year data may have been reclassified in order to be consistent with the current year's presentation.

NOTES TO FINANCIAL STATEMENTS December 31, 2018 and 2017

In addition to the liabilities above, information on the net pension and other post-employment benefits liability (asset) are provided in Note 7 and Note 8, respectively.

NOTES TO FINANCIAL STATEMENTS
December 31, 2018 and 2017

#### NOTE 5 - OPERATING SUBSIDIES

Metro receives operating subsidies from state and local governments. Federal subsidies are received for capital grants as well as capital grants that reimburse outlays recorded as operating expenses.

State operating assistance is received in quarterly payments from the Wisconsin Department of Transportation.

Local operating assistance is in the form of subsidies from the City of Madison, Town of Madison, Cities of Middleton, Fitchburg and Verona, the Village of Shorewood Hills, the University of Wisconsin, Madison Area Technical College and Madison Metropolitan School District. Contracts are executed with all entities defining subsidy amounts and procedures.

The following are the operating subsidies for the years 2018 and 2017:

	2018	2017
Fadanal	Ф C 500 075	Ф 0 500 040
Federal	\$ 6,509,275	\$ 6,582,042
Federal operating grant pass-through to sub recipient	(209,814)	(286,106)
State	17,357,996	17,414,239
Local public subsidies	3,701,969	4,046,352
City of Madison	10,889,415	10,562,056

Federal and State subsidies are subject to granting agency compliance audits. Management believes losses, if any, resulting from the compliance audits are not material to these statements.

#### NOTE 6 - Unearned Revenue/Prepaid Expense - Land and Tower Lease

In 1993 the city on behalf of Metro entered into an operating lease with the University Research Park, Inc. for use of a tower. Metro's share of the lease was \$96,250. The lease is 25 years in length and was fully prepaid. The revenue received to pay for the lease was deferred and is being recognized using the straight-line method over the life of the lease.

In 1997 the city on behalf of Metro entered into a thirty year, fully prepaid operating lease with University Research Park, Inc. for a parcel of land used in conjunction with bus transfer facilities for \$214,000. The revenue received to pay for the lease was deferred and is being recognized over the life of the lease.

NOTES TO FINANCIAL STATEMENTS December 31, 2018 and 2017

### NOTE 6 - UNEARNED REVENUE/PREPAID EXPENSE - LAND AND TOWER LEASE (cont.)

In 2004, the city on behalf of Metro entered into an operating lease for \$103,488 with Kraft Foods for a parcel of land to be used as the North Park & Ride lot through 2012. At the same time extensions of both the North Transfer Point lease and the North Park & Ride lease were also negotiated through 2018 for an additional \$96,200. These leases were fully prepaid. The revenue received to pay for these leases was unearned and is being recognized over the life of the leases. These leases were fully recognized in 2018.

The following table represents the prepaid asset to be amortized over the remaining life of the leases:

	niversity earch Park	 Total			
2019 2020 2021 2022 2023 2024-2027	\$ 3,595 3,336 3,096 2,872 2,665 8,353	\$ 3,595 3,336 3,096 2,872 2,665 8,353			
	\$ 23,917	\$ 23,917			

The previous difference between the prepaid and the deferred revenue was equal to the 20% local match on the North Park and Ride Lot which was not deferred.

NOTES TO FINANCIAL STATEMENTS December 31, 2018 and 2017

#### NOTE 7 - EMPLOYEES' RETIREMENT SYSTEM

#### General Information About the Pension Plan

*Plan description*. The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, and expected to work at least 1,200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

ETF issues a standalone Comprehensive Annual Financial Report (CAFR), which can be bound at http://etf.wi.gov/publications/cafr.htm.

**Vesting.** For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

**Benefits provided.** Employees who retire at or after age 65 (54 for protective occupation employees, 62 for elected officials and State executive participants) are entitled to receive an unreduced retirement benefit. The factors influencing the benefit are: (1) final average earnings, (2) years of creditable service, and (3) a formula factor.

NOTES TO FINANCIAL STATEMENTS
December 31, 2018 and 2017

#### NOTE 7 - EMPLOYEES' RETIREMENT SYSTEM (cont.)

Final average earnings is the average of the participant's three highest years' earnings. Creditable service is the creditable current and prior service expressed in years or decimal equivalents of partial years for which a participant receives earnings and makes contributions as required. The formula factor is a standard percentage based on employment category.

Employees may retire at age 55 (50 for protective occupation employees) and receive reduced benefits. Employees terminating covered employment before becoming eligible for a retirement benefit may withdraw their contributions and forfeit all rights to any subsequent benefits.

The WRS also provides death and disability benefits for employees.

**Post-retirement adjustments**. The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

	Core Fund	Variable Fund
Year	<u>Adjustment</u>	<u>Adjustment</u>
2007	3.0%	10%
2008	6.6	0
2009	(2.1)	(42)
2010	(1.3)	22
2011	(1.2)	11
2012	(7.0)	(7)
2013	(9.6)	9
2014	4.7	25
2015	2.9	2
2016	0.5	(5)
2017	2.0	4.0

**Contributions.** Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, and Executives and Elected Officials. Starting January 1, 2016, the Executives and Elected Officials category merged into the General Employee category. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

The WRS recognized \$1,918,887 and \$1,823,003 in contributions from Metro during the current and prior reporting periods, respectively.

NOTES TO FINANCIAL STATEMENTS
December 31, 2018 and 2017

#### NOTE 7 - EMPLOYEES' RETIREMENT SYSTEM (cont.)

Contribution rates as of December 31, 2018 and December 31, 2017 are:

	20	18	20	17
	<u>Employee</u>	Employer	<u>Employee</u>	<u>Employer</u>
General (including Executives and Elected Officials)	6.7%	6.7%	6.8%	6.8%
Protective with Social Security	6.7%	10.7%	6.8%	10.6%
Protective without Social Security	6.7%	14.9%	6.8%	14.9%

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2018, Metro reported a liability (asset) of \$(5,440,545) for its proportionate share of the net pension liability (asset). The net pension liability (asset) was measured as of December 31, 2017, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of December 31, 2016 rolled forward to December 31, 2017. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. Metro's proportion of the net pension liability (asset) was based on Metro's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2017, the City's proportion was 1.70513153%, which was an increase of .06895898% from its proportion measured as of December 31, 2016.

At December 31, 2017, Metro reported a liability (asset) of \$1,535,389 for its proportionate share of the net pension liability (asset). The net pension liability (asset) was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of December 31, 2015 rolled forward to December 31, 2016. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. Metro's proportion of the net pension liability (asset) was based on Metro's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2016, the City's proportion was 1.636172550%, which was an increase of .03798899% from its proportion measured as of December 31, 2015.

For the year ended December 31, 2018, and 2017 Metro recognized pension expense of \$463,115 and \$3,789,483.

At December 31, Metro reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	2	018	20	2017				
	Deferred Outflows of Resources	<u>Deferred</u> <u>Inflows of</u> <u>Resources</u>	Deferred Outflows of Resources	<u>Deferred</u> <u>Inflows of</u> <u>Resources</u>				
Differences between expected and actual experience Changes in assumption Net differences between project and actual earnings on	\$ 6,962,888 1,240,970	\$ 3,732,757 -	\$ 603,134 1,681,258	\$ 5,057,113				
pension plan	-	6,606,482	8,084,878	-				
Changes in proportion and differences between employer contributions and proportionate share of contributions Employer contributions subsequent to the measurement	-	90,691	-	87,545				
date	1,930,522		1,918,887					
Total	<u>\$10,134,380</u> 44	\$ 10,429,930	<u>\$12,288,157</u>	\$ 5,144,658				

NOTES TO FINANCIAL STATEMENTS
December 31, 2018 and 2017

#### NOTE 7 - EMPLOYEES' RETIREMENT SYSTEM (cont.)

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (cont.)

Deferred outflows related to pension resulting from the WRS Employer's contributions subsequent to the measurement date reported in the tables above will be recognized as a reduction of the net pension liability (asset) in the subsequent year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ended December 31	 2018	Year Ended December 31	2017
2019 2020 2021 2022 2023 Thereafter	\$ 444,106 (60,319) (1,495,640) (1,124,528) 10,309	2018 2019 2020 2021 2022 Thereafter	\$ 2,134,443 2,134,443 1,452,327 (498,694) 2,093
Total	\$ (2,226,072)	Total	\$ 5,224,612

**Actuarial assumptions**. The total pension liability in the actuarial valuation used in the current and prior year was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	2018	2017
Actuarial valuation date Measurement date of net pension	December 31, 2016	December 31, 2015
liability (asset)	December 31, 2017	December 31, 2016
Actuarial cost method	Entry age	Entry age
Asset valuation method	Fair market value	Fair market value
Long-term expected rate of return	7.2%	7.2%
Discount rate	7.2%	7.2%
Salary increases		
Inflation	3.2%	3.2%
Seniority/Merit	0.2% - 5.6%	0.2% - 5.6%
Mortality	Wisconsin 2012 Mortality Table	Wisconsin 2012 Mortality Table
Post-retirement adjustments	2.1%	2.1%

<sup>\*</sup> No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 2.1% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.

Actuarial assumptions used in the December 31, 2016 actuarial valuation are based upon an experience study conducted in 2016 using experience from 2013 – 2015. The total pension liability for December 31, 2017 is based upon a roll-forward of the liability calculated from the December 31, 2016 actuarial valuation.

Actuarial assumptions used in the December 31, 2015 actuarial valuation are based upon an experience study conducted in 2015 using experience from 2012 – 2014. The total pension liability for December 31, 2016 is based upon a roll-forward of the liability calculated from the December 31, 2015 actuarial valuation.

NOTES TO FINANCIAL STATEMENTS
December 31, 2018 and 2017

#### NOTE 7 - EMPLOYEES' RETIREMENT SYSTEM (cont.)

Long-term expected return on plan assets. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class as of December 31, 2018 are summarized in the following table:

Core Fund Asset Class	Current Asset Allocation %	Destination Target Asset Allocation %	Long-Term Expected Nominal Rate of Return %	Long-Term Expected Real Rate of Return %
Global Equities	50%	45%	8.2%	5.3%
Fixed Income	24.5	37	4.2	1.4
Inflation Sensitive Assets	15.5	20	3.8	1.0
Real Estate	8	7	6.5	3.6
Private Equity/Debt	8	7	9.4	6.5
Multi-Asset	4	4	6.5	3.6
Total Core Fund	110	120	7.3	4.4
Variable Fund Asset Class				
U.S Equities	70	70	7.5	4.6
International Equities	30	30	7.8	4.9
Total Variable Fund	100	100	7.9	5.0

New England Pension Consultants Long-Term U.S. CPI (Inflation) Forecast: 2.75%. Asset Allocations are managed within established ranges, target percentages may differ from actual monthly allocations.

NOTES TO FINANCIAL STATEMENTS
December 31, 2018 and 2017

#### NOTE 7 - EMPLOYEES' RETIREMENT SYSTEM (cont.)

The target allocation and best estimates of arithmetic real rates of return for each major asset class as of December 31, 2017 are summarized in the following table:

Core Fund Asset Class	Current Asset Allocation %	Destination Target Asset Allocation %	Long-Term Expected Nominal Rate of Return %	Long-Term Expected Real Rate of Return %
U.S. Equities	50%	45%	8.3%	5.4%
Fixed Income	24.5	37	4.24	1.4
Inflation Sensitive Assets	15.5	20	4.3	1.5
Real Estate	8	7	6.5	3.6
Private Equity/Debt	7	7	9.4	6.5
Multi-Asset	4	4	6.6	3.7
Total Core Fund	110	120	7.4	4.5
Variable Fund Asset Class	_			
U.S Equities	70	70	7.6	4.7
International Equities	30	30	8.5	5.6
Total Variable Fund	100	100	7.9	5.0

New England Pension Consultants Long-Term U.S. CPI (Inflation) Forecast: 2.75%. Asset Allocations are managed within established ranges, target percentages may differ from actual monthly allocations.

Single discount rate. A single discount rate of 7.20% was used to measure the total pension liability as of December 31, 2018 and December 31, 2017. This single discount rate was based on the expected rate of return on pension plan investments of 7.20% and a long-term bond rate of 3.31% in 2018 and 3.78% in 2017. Because of the unique structure of WRS, the 7.20% expected rate of return implies that a dividend of approximately 2.1% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTES TO FINANCIAL STATEMENTS December 31, 2018 and 2017

#### NOTE 7 - EMPLOYEES' RETIREMENT SYSTEM (cont.)

Sensitivity of the Metro's proportionate share of the net pension liability (asset) to changes in the discount rate. The following presents Metro's proportionate share of the net pension liability (asset) calculated using the discount rate of 7.20 percent, as well as what Metro's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.20 percent) or 1-percentage-point higher (8.20 percent) than the current rate.

The sensitivity analysis as of December 31, 2018 and 2017 follows:

Metro's proportionate share of the net position liability (asset)	1% Decrease to Discount Rate (6.20%)		nt Rate Current Discount			1% Increase to Discount Rate (8.20%)	
December 31, 2018 December 31, 2017	\$	14,076,547 20,225,488	\$	(5,440,545) 1,535,389	\$	(20,274,138) (12,853,273)	

**Pension plan fiduciary net position.** Detailed information about the pension plan's fiduciary net position is available in separately issued financial statements available at http://etf.wi.gov/Publications/cafr.htm.

NOTES TO FINANCIAL STATEMENTS
December 31, 2018 and 2017

#### **NOTE 8 - OTHER POST-EMPLOYMENT BENEFITS**

The city administers a single-employer defined benefit healthcare plan, (the Retiree Health Plan) in which Metro participates. The Plan provides healthcare coverage to city employees and their spouses, which covers both active and eligible retired members. The Plan is affiliated with the Wisconsin Public Employer's Group Health Insurance – Dane County service area plan, a purchasing plan administered by the State of Wisconsin. Benefit provisions are established through collective bargaining agreements. The Retiree Health Plan does not issue a publicly available financial report.

Contribution requirements are established through collective bargaining agreements and may be amended only through negotiations between the city and the union. The Plan provides eligible retirees with the opportunity to stay on the city's health insurance plan. Eligible retirees and spouses contribute the full amount of the premiums after age 55, except for teamsters who contribute the difference between the rate paid by the city and current year rate. As the eligibility requirements for different classes of employees vary, please see the City of Madison audit report for complete details of all benefits offered.

*Employees covered by benefit terms.* At December 31, 2018, the following employees were covered by the benefit terms for the City of Madison:

	City of Madison	
Inactive plan members or beneficiaries currently receiving benefit payments Active plan members	2,895 807

NOTES TO FINANCIAL STATEMENTS December 31, 2018 and 2017

#### NOTE 9 – OTHER POSTEMPLOYMENT BENEFITS (cont.)

#### TOTAL OPEB LIABILITY

Metro's total OPEB liability of \$9,852,442 was measured as of December 31, 2018, and was determined by an actuarial valuation as of that date.

**Actuarial assumptions.** The total OPEB liability in the January 1, 2018 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.70% per year
Salary increases	0.4% - 4.8%
Investment rate of return	3.56% as of January 1, 2018 and 4.11% as of December 31, 2018
Healthcare cost trend rates	8.0% decreasing to an ultimate rate of 4.50%

The discount rate was based on 20-year tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher (or equivalent quality on another rating scale.

Mortality Rates are based on RPH-2018 Total Dataset Mortality Table fully generational using Scale MP-2018.

The actuarial assumptions used in the December 31, 2018 valuation were based on the results of an actuarial experience study for the period January – December 2018.

#### CHANGES IN THE TOTAL OPEB LIABILITY

	Total OPEB Liability		
Balances at December 31, 2017	\$	10,182,459	
Changes for the year:			
Service cost		705,351	
Interest		380,003	
Differences between expected and		,	
actual experience		(781,976)	
Changes in assumptions		(202,495)	
Employer contributions	_	(430,900)	
Net changes	_	(330,017)	
Balances at December 31, 2018	\$	9,852,442	

NOTES TO FINANCIAL STATEMENTS
December 31, 2018 and 2017

#### NOTE 9 – OTHER POSTEMPLOYMENT BENEFITS (cont.)

#### CHANGES IN THE TOTAL OPEB LIABILITY (cont.)

Changes in assumptions and other inputs from December 31, 2017 to December 31, 2018 include the following, respectively; change in the actuarial cost method from the Projected Unit Credit with linear proration to decrement to the Entry Age Normal Level % of Salary, change in the discount rate from 4.50% to 4.11%, update in the mortality table from SOA RPH-2017 Total Dataset Mortality Table fully generational using Scale MP-2017 to SOA RPH-2018 Total Dataset Mortality Table fully generational using Scale MP-2018 and an update in the health care and subsidy trend rates from an initial rate of 7.50% decreasing by 0.05% annually to an ultimate rate of 4.50% to an initial rate of 8.00% decreasing by 0.05% annually to an ultimate rate of 4.50%.

**Sensitivity of the total OPEB liability to changes in the discount rate**. The following presents the total OPEB liability of Metro, as well as what the Metro's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.11 percent) or 1-percentage-point higher (5.11 percent) than the current discount rate:

	•	,, , , , , , , , , , , , , , , , , , , ,	Discount Rate (4.11%)		,
Total OPEB liability	\$	10,644,443	\$	9,852,442	\$ 9,133,867

**Sensitivity of the net OPEB liability to changes in the healthcare cost trend rates.** The following presents the net OPEB liability of Metro, as well as what the Metro's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower (7.0 percent decreasing to an ultimate rate of 3.5%) or 1-percentage-point higher (9.0 percent decreasing to 5.5% percent) than the current healthcare cost trend rates:

		Healthcare Cost				
	1%	6 Decrease	Tr	end Rates	_1	% Increase
Total OPEB liability	\$	8,981,959	\$	9,852,442	\$	10,874,694

#### OPEB EXPENSE AND DEFERRED INFLOWS OF RESOURCES RELATED TO OPEB

For the year ended December 31, 2018, Metro recognized OPEB expense of \$712,537. At December 31, 2018, Metro reported deferred inflows of resources related to OPEB from the following sources:

	Deferred Inflows of Resources
Changes of assumptions or other inputs Differences between expected and actual experience	\$ (177,183) (684,229)
Total	\$ (861,412)

NOTES TO FINANCIAL STATEMENTS December 31, 2018 and 2017

#### **NOTE 9 – OTHER POSTEMPLOYMENT BENEFITS (cont.)**

#### OPEB EXPENSE AND DEFERRED INFLOWS OF RESOURCES RELATED TO OPEB (cont.)

Deferred outflows related to OPEB resulting from the employer's contributions subsequent to the measurement date reported in the table above will be recognized as a reduction of the total OPEB liability in the subsequent year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

#### Year Ended December 31:

2019	\$ (123,059)
2020	(123,059)
2021	(123,059)
2022	(123,059)
2023	(123,059)
Thereafter	(246,117)
Total	\$ (861,412)

NOTES TO FINANCIAL STATEMENTS December 31, 2018 and 2017

#### NOTE 8 - OTHER POST-EMPLOYMENT BENEFITS (cont.)

City

#### PRIOR YEAR OTHER POSTEMPLOYMENT BENEFIT DISCLOSURES REQUIRED UNDER GASB No. 45

The city's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the city's annual OPEB cost for 2017 and 2016:

	Entire	e City	Me	etro
	2017	2016	2017	2016
Annual OPEB Cost	\$ 7,293,602	\$ 7,440,559	\$ 1,435,590	\$ 1,261,692
Contributions made	2,625,538	3,920,347	869,728	708,224
Increase in net OPEB obligation	4,668,064	3,520,212	565,862	553,468
Net OPEB Obligation - Beginning of Year	32,933,461	29,413,249	4,839,318	4,285,850
Net OPEB Obligation - End of Year	\$ 37,601,525	\$ 32,933,461	\$ 5,405,180	\$ 4,839,318

The city's and Metro's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB liability for 2017, 2016 and 2015 were as follows:

Percentage of

	Annual OPEB	Annual OPEB Cost	Net OPEB
Fiscal Year Ended	Cost	Contributed	Liability
December 31, 2017 December 31, 2016 December 31, 2015	\$ 7,293,602 \$ 7,440,559 \$ 6,808,834	36% 53% 43%	\$37,601,525 \$32,933,461 \$29,413,249
Metro		Percentage of Annual OPEB	
Fiscal Year Ended	Annual OPEB Cost	Cost Contributed	Net OPEB <u>Liability</u>
December 31, 2017 December 31, 2016	\$ 1,435,590	61%	\$ 5,405,180 \$ 4,839,318

NOTES TO FINANCIAL STATEMENTS
December 31, 2018 and 2017

#### NOTE 8 - OTHER POST-EMPLOYMENT BENEFITS (cont.)

The funded status of the plan (for the entire city) as of December 31, 2017, the most recent actuarial valuation date, was as follows:

Actuarial accrued liability (AAL) Actuarial value of plan assets	\$ 62,674,237 <u>0</u>
Unfunded Actuarial Accrued Liability (UAAL)	\$ 62,674,237
Funded ratio (actuarial value of plan assets/AAL)	0.0%
Covered payroll (active plan members)	<u>\$ 190,626,255</u>
UAAL as a percentage of covered payroll	32.9%

Actuarial valuations of an ongoing plan involve estimates for the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions include a 4.5% investment rate of return and an annual healthcare cost trend rate of 8.0% for 2018, reduced by decrements to an ultimate rate of 4.5% for 2025 and beyond. Both rates include a 3.0% inflation assumption. The plan's unfunded actuarial accrued liability is being amortized as a level dollar over 30 years based on an open group.

Please see the City of Madison basic financial statements for the required supplemental schedule of funding progress.

NOTES TO FINANCIAL STATEMENTS
December 31, 2018 and 2017

#### NOTE 9 - RISK MANAGEMENT

Metro is exposed to various risks of loss related to torts, theft of, damage to, or destruction of assets, errors and omissions, workers compensation, and health care of its employees. The city purchases commercial insurance for health care and most property losses. Settled claims have not exceeded the commercial coverage for health claims in any of the past three years. There has been no reduction in coverage compared to the prior year.

Metro is self-insured for workers' compensation claims. Metro is partially self-funded and participates in a public entity risk pool to provide coverage for liability and transit system property losses.

For its other liability coverage Metro Transit was insured under the City of Madison's liability program with Wisconsin Mutual Insurance Company (WMMIC). Details of the City's participation with WMMIC are provided in the City's financial statements. Metro Transit's workers' compensation program is also included in the City's self-insured workers' compensation program. Metro Transit's property exposures are insured under the City's property coverage through Municipal Property Insurance Company (MPIC).

#### TRANSIT MUTUAL INSURANCE CORPORATION OF WISCONSIN (TMI)

Transit Mutual Insurance Corporation of Wisconsin (TMi) is a municipal mutual insurance corporation which provides auto liability and physical damage coverage for municipally-owned transit systems in Wisconsin. Each insured property is an owner of the mutual insurance corporation. Metro insures its transit systems' auto liability and physical damage with TMi and is an owner of the corporation.

In 2018, TMi issued Metro an auto liability policy with a \$250,000 per person policy limit and a \$7,000,000 per accident policy limit. Of the per accident policy limit, TMi insures \$2,000,000 and reinsures \$5,000,000 with Great American Reinsurance Group. In addition, Metro's policy provides for \$25,000 per person and \$50,000 per accident in uninsured motorist insurance.

In 2018, TMi also provided Metro with auto physical damage coverage for its buses with a total limit of \$78,200,000 and a \$5,000 deductible for collision and comprehensive coverage. TMi insures \$750,000 and reinsures the remainder of \$77,450,000 with Great American Insurance Group.

Management of TMi consists of a board of directors comprised of one representative for each member. Metro does not exercise any control over the activities of TMi beyond its representation on the board of directors.

Premiums are determined in advance of each premium year, which begins on January 1. TMi is an assessable mutual; accordingly, the board of directors may require that supplemental contributions be made by members to ensure adequate funds are available to meet the obligations applicable to the premium year. Members are required by Wisconsin statute and TMi bylaws to fund any deficit attributable to a premium year during which they were a member. TMi was incorporated in 1985 and began issuing insurance policies in 1986; there has never been a member assessment beyond the annual premiums.

NOTES TO FINANCIAL STATEMENTS
December 31, 2018 and 2017

#### NOTE 9 - RISK MANAGEMENT (cont.)

Metro's share of TMi is 40.70% for auto liability. A list of the other members and their share of participation is available in the TMi report which is available from: TMi, PO Box 1135, Appleton, WI 54915-1483 or by email from tmi@transitmutual.com.

#### NOTE 10 - Basis For Existing Fares

Current fares were made effective August 28, 2016 as approved by the Transit and Parking Commission.

#### NOTE 11 - COMMITMENTS AND CONTINGENCIES

Metro provides Wisconsin Department of Transportation Section 85.20 funds to Dane County for door-to-door volunteer driver escort services and Group Access Transportation for the elderly and disabled in the Metro Transit System service area.

Metro contracts with a number of providers for demand-responsive paratransit services. Contract terms and conditions vary for each provider.

In January of 2013 the Transit and Parking Commission approved a contract with Gillig Corp. for the purchase of up to 80 buses over a six-year period. As of December 31, 2018, all 80 buses had been purchased under this contract. In September of 2018 the Common Council approved a contract with New Flyer Corp. for the purchase of up to 72 buses over a five-year period.

From time to time Metro is party to various pending claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and Metro's legal counsel that the likelihood is remote that any such claims or proceedings will have a material adverse effect on Metro's financial position or results of operations.

#### NOTE 12 - RESTATEMENT FOR CUMULATIVE EFFECT OF A CHANGE IN ACCOUNTING PRINCIPLE

Metro adopted GASB Statement No. 75 effective January 1, 2018. The cumulative effect of implementation is reflected as a restatement of net position at December 31, 2017 as follows:

Net position – previously reported	\$ 33,885,728
Net OPEB liability, December 31, 2017 Deferred inflows, December 31, 2017	 (4,777,279) 181,141
Cumulative Effect of a Change in Accounting Principle	 (4,596,138)
Net position – as restated	\$ 29,289,590

Additional information required for retroactive implementation was not provided by the OPEB plan.
