

Metro Transit Fare Cap Pricing

What is Fare Cap Pricing?

- When an adult rider taps their Fast Fare card on the bus, the system charges a single ride fare of \$2.00.
- The same adult continues to ride and taps every time they board.
- Once the system reads that this card hit the daily “cap” price of \$5.00, it will no longer charge them for the rest of the day.
- That same rider then continues to ride through the week and tap every time they board. When the system reads that the rider reaches the weekly cap of \$16.25, rides will be free for the rest of the week.
- The most a regular adult fare will be on any day is \$5.00, the most in any week is \$16.25, and the most in a month is \$65.00.

Adult Fare Cap Pricing

Single Ride	\$2.00	Weekly Cap	\$16.25
Daily Cap	\$5.00	Monthly Cap	\$65.00

What About Reduced Fares?

Metro offers one set of reduced pricing caps for youth, seniors, those with disabilities, and those with low income.

Single Ride	\$1.00	Weekly Cap	\$7.00
Daily Cap	\$2.50	Monthly Cap	\$28.00

These accounts and fare capping will work the same as any other rider, just with a lower cost per tap. See back of flyer for how to set up your account for half-price fares.

How Do Transfers Work?

There is a 2-hour transfer window.

Tap your card every time you ride. Transfers will be automatically tracked. Your account will only be charged after your 2-hour transfer has expired.
